

## Nowrooze Message

On the occasion of the arrival of the ancient Nowrooze, we are delighted to congratulate our fellow Iranian's esteemed readers and specially the IBCCIM members. We wish them all Health, success and happiness in all aspects of their lives in the new year.

The year past is the crucial turning point in the economic history of Iran. Since despite the existence of excited political atmosphere, we witnessed the abolition of the state monopolies, and the free investment of foreign and domestic entrepreneurs in different fields of the economy.

In the year past IBCCIM enjoyed receiving British business and investment missions in Iran and also dispatching Iranian business groups to London and Birmingham. In this respect, we are pleased to say that, the participation in exhibitions, seminars and the one day conference held in London caused closer and fruitful bilateral relationship between businessmen of the two countries.

In the year gone, the IBCCIM as well as ICCIM as the mother of all joint and regional chambers enjoyed receiving generous cooperation and helps from BICC and commercial department of British Embassy in Tehran, particularly the economic department of Iran's embassy in London, for which we must offer our appreciation respectfully.

In the year to come, we pray and wish to live in more peaceful atmosphere, and witness more exchange of trade and investment missions between the two countries, and also be able to observe the improvement of bilateral economic relationships, economic development and extensive social welfare for the two countries.
